

CORPORATE HEADSHOT PHOTOGRAPHY

EXPERIENCED, THOROUGH AND EFFICIENT SERVICE

Most businesses today are all about their people. In the age of the internet, websites and social media, your customers' first impression of your staff is often from their pictures on-line or in print.

THE PERFECT HEADSHOT

Taking the perfect headshot seems so simple and yet it requires skill, patience, understanding of the subject and total attention to detail.

TIME

Time is money so I aim to work swiftly and efficiently to produce outstanding results for you and your staff.

UNDERSTANDING YOUR HOUSE STYLE

Before the day of the shoot, I establish your house style in discussion with your HR, Marketing or PR team. I make sure I know where the images are going to be used and at what size so they look their best in print or on the Web.

PREPARATION

All lighting tests are completed before your first subject arrives and I keep strictly to schedule. Afterwards, a small selection of images from each sitter are placed on my proofing website and the sitters choose their preferred images which are then retouched and produced in the correct format for your use.

FIXED PRICING

I operate a fixed price of a £110 call out fee for the first sitter and thereafter £35 per sitter. This includes one retouched and finished high resolution file per person.

GUARANTEED SATISFACTION

I offer a no quibble guarantee of satisfaction or I will re-shoot until you are satisfied that this is the best head shot you've ever had.
